

Do you want to start or continue your studies at the University of Lausanne?

participate in public events?

to get involved to promote access to studies?

The association UNIL sans frontières designs and puts in place measures to overcome the difficulties that people in exile encounter to access or complete a university education.

UNIL sans frontières intervenes on several levels:

- Administrative: equivalence of diploms, registration
- Financial: obtaining economic aid
- Linguistics: French classes
- Accompaniment: mentoring, information

At the same time, UNIL sans frontières raises awareness among the university community and works with university authorities and public authorities, also in collaboration with other actors committed to the right of asylum in Switzerland.
